

Workshop Half Marathon

Sunday 26th Oct 2008

Race Report by Tina Brown

The race conditions were ideal as it was cold, sunny & dry. It was nice to see a lot of Sutton runners taking part with everyone cheering each other on throughout the race. It was a pleasant surprise to spot Mick & Phill at mile 6 / 7 taking photos which gave us all boost at the half way point. Although the course began with a steep uphill start, it soon straightened out and took us into the picturesque Clumber Park. Mile 9 – 11 was tough going but if you happened to look up, you were surrounded by the yellows, gold's, reds & oranges of the autumn leaves – which kinda gave you a lift.

The last mile was a very welcome downhill which enabled most runners to pick up the pace for a fast finish.

Many thanks to all Sutton runners who turned out to support the race, it was very much appreciated.

PS The results on the web site are the gun times and not the chip times!!
